

# PRODUCT BULLETIN

<b>ISSUE/DATE:</b>	March 1, 2012	<b>BULLETIN NUMBER:</b>	AQ030112
<b>SUBJECT:</b>	Lamp Return Wire Teflon Shrink Band	<b>PRODUCT LINE:</b>	Aquafine Lamps – 60 inch
<b>TOPIC:</b>	<b>SINGLE ENDED LAMP RETURN WIRE TEFLON SHRINK BAND</b>		

## OVERVIEW / DESCRIPTION

Aquafine Corporation utilizes Teflon Shrink Bands to secure and hold the lamp return wire on single ended lamp designs during shipment and handling and operation. This replaces previous use of rubber bands for securing lamp return wires.

## DETAILS

Prior to March 1, 2012, Aquafine single ended lamp designs utilized a rubber band to provide additional support during shipment and handling specifically for 60 inch single ended lamps. This does not apply to 30 inch single end lamps. This rubber band was to be removed before operation.

Aquafine single-ended lamp designs now utilize a Teflon Shrink Band, an integral part of the lamp during handling and operation and are **NOT TO BE REMOVED**.

## WARRANTY

The standard 12 Month Aquafine Warranty applies.

## ASSISTANCE

If you require technical assistance, have questions or comments; please contact your Authorized Aquafine Distributor.

For contacting Aquafine directly, you can reach our Customer Care Representatives or Technical Support Department at:

## **WARNING!**

**DO NOT STRETCH OR MANIPULATE** the lamp return wire. The lamp return wire should **NOT** be tampered with and is critical to the function of the lamp. Tampering with the lamp return wire can cause lamp failure.
